RECOMMENDATION FOR LICENSE

[X] NO CHANGES to licensing status recommended

[] **PROVISIONAL** license from _____ to _____

[] SUSPENSION of License

[] **REVOCATION of License**

Summary of Complaint:

There was a concern of mold in the child care center.

Licensing Rules Relevant to the Complaint:

109.11(3)a(1) Center and premises are sanitary, safe, and hazard free.

Inspection Findings:

This worker inspected the facility. I did not observe any mold/mildew.

There was evidence of a bleach based spray being used to treat the brick walls in two classrooms.

The basement had some water damage. The fire wall, cabinets in the infant room and wooden doors appeared to be damaged.

Terina shared that the fire wall, wooden doors and cabinets are being removed. The center has hired a contractor who will install a new fire wall, vinyl doors, and cabinets. They are expecting to have this completed by 1/31/2014.

Terina has purchased two dehumidifiers to help reduce the moisture in the air.

Terina ensures that the facility remains free from mold/mildew by cleaning it after hours with Clorox Mold/Mildew Cleaner. She ensures that she follows the procedures on the MSDS sheet.

Special Notes and Action Required:

Terina is actively working with contractors and ServPro on mold remediation.
